Dear Marsha:

I would like to take this opportunity to provide you with my assessment of the courses provided by Landmark, including The Forum and the Advanced Course which I attended in 1995.

Both sessions provided a set of very meaningful tools to move beyond where I was at the time. I have found that the training continues to reveal itself on a daily basis in my personal, as well as professional, capacity. The tools provided are beneficial for any age including young people, those just beginning careers, as well as those immersed in their chosen field or even planning to retire.

Value is where you find it. The Landmark training has proven its worth and continues to do so. Should you have any questions, please do not hesitate to contact me at 310-618-5706.

Very truly yours,

JOSEPH C. DE LADURANTEY
